FROM PHILAS COLLECTION

PART OF THE NORMAN SHEPPARD MEMORIAL COLLECTION

Norman'J. Sheppard

#### CELEBRATING THE LIFE OF NORMAN J. SHEPPARD

Today family and friends of Norman Sheppard are gathered to celebrate his life. Norm (as he is affectionately known) was a man of many parts. An academic with qualifications in Industrial Chemistry, Metallurgy & Botany. He was also a Teacher, a Carpenter, Wordsmith and Graphic Artist, and my guide and mentor over the past 30 years.

With all this knowledge he was called on by the War Ministry to apply his talents to the making of munitions during WWII. He was placed in charge of a workforce of 700 personel, and at one stage was sent to New Guinea to sort out an ordinance problem. To carry out this mission, Norm was given the temporary Army rank of Lt. Colonel giving him authority to Act. He was swom to secrecy – which he maintained until long after the war.

Concurrently, this man of peace spent his leisure hours studying stamps, in a scientific way of course. It was therapy, and this cultural activity set him on the course to a brilliant philatelic future where he would use his skills for the acquisition of knowledge – research into stamp production, papers, gums and printing methods – in his quest for a NSW "Home of Philately", which came into being 25 years later.

Norm helped to draw up the PHILAS Constitution in 1970. He was appointed as a Trustee and in 1973 became President of Philas. He served on numerous committees, virtually the manager of Philas House, with furniture, fittings, repairs and maintenance his responsibility. This included odd job man, Mr. Fixit, which he excelled at. All work was carried out in a Voluntary capacity and he championed Volunteerism.

His crowning glory was the establishment of a Philas Library Catalogue when he accepted the post of Hon. Librarian. This achievement will be superceded by a new edition which has taken 2½ years to compile and is due for publication in 2001.

Every workday we would listen to the master quote from a book he was reading, usually history books, and he would keep us entertained and enlightened as history "came to life" – he always had a ready and appreciative audience. His retention of facts and figures was astounding.

Norm was the Founder and Editor of "The Bulletin" (ACCC Journal) for 39 years, and the "NSW Philatelist" (P.S.NSW) until recently. Editorials conveyed his thoughts on many subjects - particularly the inequality of government funding - billions for Sport, baubles for Recreation, the "Teen Tax" being foisted on Philas in 1993 and laterly the G.S.T. impost without any compensation for change. He did not change Australian history, but he left vivid impressions of the "good old days", and social injustice.

On behalf of PHILAS, its clubs, societies and their members, I wish to convey our condolences to Norm's family in their loss. On a personal note, my wife and I will miss his wit and wisdom. It was a pleasure to work with him and a privilege to have known him — a good man, a great man, and a gentleman.
